3 years of academic experience in computer science seeking an internship opportunity to network and build my skills as a software engineer as well as create a product that will be impactful to society

EDUCATION

Hunter CUNY College | Manhattan, NYC

Bachelor of Arts in Computer Science

January 2020 – May 2023

GPA: 3.96

Relevant coursework: Algorithms & Data Structures (CSCI 335), Computer Architecture

Currently learning: Web Development (PERN), APIs, Database Management (SQL, R)

PROJECTS (most relevant first)

FitTrack – Role: Front & Backend Development | Team of 5

Local Demo Day 1st Place

<https://github.com/FitTracker-Group/FitTrack>

- Developed an Android Application to inform users how to exercises via categories using Java
- Designed the home screen with images that direct the user to the appropriate workouts in a recycler view parsed from information stored in Back4App utilizing parceler
- Implemented usage of the internal camera from the app for users to share their progress via the bumptechn.glide library
- Incorporated a search bar for users to filter out specific exercises based on name/difficulty programmed via an ArrayList of filtered videos in Java
- Utilized: Java, Android Studio, Back4App, Bumptech.Glide

SimpleTweet (Twitter Clone)

<https://github.com/Kirazuto7/Tipculator>

- Integrated Twitter API to enable users to login into the app using their actual Twitter accounts
- Users can post new tweets to Twitter and view their tweets from Twitter via the app
- Tweets persisted in SQLite deployed via DAO & the Room Database enable tweets to be view offline
- Utilized: Java, Android Studio, Twitter API, RoomDB

EXPERIENCE

Duane Reade – Customer Service Clerk | Manhattan, NYC

May 2016 – January 2020

- Accomplished Customer Service Employee of the Month by applying customer service skills that I learned from my senior team members and increasing overall customer satisfaction ratings
- Worked in a high pressure and busy environment where prioritizing between numerous tasks and satisfying customer demands is key.
- Trained new crew members how to perform and solve the various workload assigned.

RELEVANT TRAINING

CodePath Certificate in Android Development

September 2021 - December 2021

CodePath Certificate in iOS Development

January 2022 – May 2022

SKILLS & INTERESTS

Programming: (*proficient*): C++, Java, Python (*familiar*): HTML, CSS, Swift, C#, Javascript, MySQL

Tools: Github, Visual Studio, VS Code, Android Studio, XCode, Ubuntu, Unreal Engine, Microsoft Office

Interests: Traveling, Cooking, Foodie, Learning languages (foreign & computer), Exercising, Gaming
